**FOR IMMEDIATE RELEASE**

## ***NEW PARTNERSHIP PROVIDES TOTAL SOLUTIONS***

### **Plan Express Expands and Strengthens Its Logistical Capability with the Addition of RSA's Professional Reprographic Services**

**MEMPHIS, TN – February 2005** – The Reprographic Services Association (RSA) and Plan Express, Inc. (PEI) announce the first of its kind partnership designed to complement each organization and provide proven cost-savings and productivity to PEI and RSA customers.

The basis of the joint working relationship, which came about after months of extensive studies and dialogue with members, has Plan Express now offering – in conjunction with the RSA – “SAME DAY” pick-up and delivery service at the 100+ RSA print locations nationwide. In addition, RSA member organizations are now able to offer late night logistics through the Plan Express facility in Memphis, TN as well as Plan Express satellite production facilities located strategically near many domestic Fed Ex facilities.

Using the automated ordering system and late night fulfillment capabilities of Plan Express, owners, contractors and sub-contractors have realized significant and proven productivity gains and cost-savings. Currently, Plan Express provides logistical services for its own customers as well as the subscribers of Dodge-McGraw Hill Construction, CMD Reed Construction, iSqFT and The Blue Book. Equally, users of Primavera, Meridian Project Systems, WinEST and Quest have benefited through integrating their software with the automated services provided by Plan Express.

All of these users and firms have been able to extend their work day, and to produce and track construction documents, resulting in the completion of thousands of projects on-time and on-budget. With the RSA agreement in place, Plan Express can now offer these services for “SAME DAY” fulfillment.

The agreement with Plan Express enables the RSA membership to offer their clients the ability to reach any city in the country with a connection to the late night logistics offered by Plan Express.

In describing the agreement, DeWayne Adamson, CEO of Plan Express, says, “We see it as a win-win for both of our organizations, each company’s strengths complement the other to provide a total solution. People are seeking maximum efficiencies in their business...needing to deliver better productivity and lower costs, all the while having total accountability.”

## **Page 2 – PEI—RSA Partnership**

The RSA – an organization of reproduction facilities – is operated by the stockholders of the Reprographic Services Association (RSA), a cooperative business entity. Presently the corporation consists of 131+ professional reprographic locations with over 2,500 employees.

Through the RSA organization, members keep abreast of the latest technology to support the design profession. RSA members can offer their clients solutions to problems with cutting-edge technologies. RSA members offer full-service reprographic capabilities. From high-volume printing to color graphic production and design the organization provides comprehensive services for the design professional.

Plan Express is the fastest growing (provider of late night logistics and automated logistical systems) and leading provider of construction documents, offering a complete solution for construction management, printing and delivery of plans. To learn more about Plan Express, late night logistics and “SAME DAY” service, visit [www.planexpress.net](http://www.planexpress.net) or call 901.843.2142. To learn more about the RSA locations, professional reprographics and full product offering, visit [www.rsacorporation.com](http://www.rsacorporation.com).
